### THANKSGIVING DAY.

One good thing about this day is that it is a holiday. Americans give too much indifference to ordinary precaution. time to work, and what few pleasures we take, we bolt. An addition to the sum of our holidays is therefore a desirable thing. By a happy desuctude of feeling the day

is no longer regarded as an antidote to lican National Committee and that Mr throughout the land. But Thanksgiving is well celebrated, too. The attendance at probably be larger than that at church sergiving spirit, however, in the one as in the another Thanksgiving Day.

Another pleasant feature of this day is one which has its focus at the family table, where papa carves the nicely browned bird and mamma watches the olive branches to see that they don't overload on turkey. cranberry sauce and hot mince-pie. Peace, good appetite and content should reign supreme. May they wait upon you all.

One reflection should rise with the grateful aroms of the smoking viands. It is the thought that joy can be shed upon many s lowly household by bestowing some of these creature comforts there. Think of the happiness you can give at so little expense and trouble, and ask yourself if to give it is not exceeding good.

Think also of the bonny tree which the readers of THE EVENING WORLD are going to rear for the children of the poor a Christmas time. Let that have place in your thoughts and give to that also. This is not taxing yourselves too much. Such deeds enlarge the heart.

### QUIET EXECUTIONS.

Warden BRUSH will interpret the law which imposes a measure of secrecy in regard to executions with the most conentious rigor. He refuses to disclose or insinuate the hour or day when the execu tion will take place, and he has denied ad mission to representatives of the press. No fault can be found with the Warder

for acting severely within the limits of the law, nor even for a reading of it which to some may seem exaggerated. He can do nothing else as an honest official than act ccording to his understanding of the same. It is the law which is open to censure rather than he who executes it to the letter.

The vigilance and earnest prevision of Warden BRUSH will secure a thorough test of electricity as a legal death-dealing community should rise in overwhelming indignation. That is all.

# FOR THIS, THANKS.

A timely topic of the day is the success which is now almost promised to the novel surgical experiment of patching up the detect in a boy's leg by the insertion of an inch of the bone of a dog. Both JOHNNIE GETHIUS and his dog Yip are going to enjoy a real sociable Thanksgiving Dinner Warden ROBERTS has promised the boy the tid-bits of the best turkey in the lot, and JOHNNIE Will divide evenly with Yip.

The success of every tentative measu in surgery or medicine is worthy of special thanksgiving. It enlarges the resources of suffering humanity, and whatever mends or obviates the afflictions of the race is a big step forward. It is to be hoped that this experiment will be a perfect success At all events, its attempt was fully justifiable. Jounnie and Yip both deserve
